

com.example.backend.controller.
KnowledgeGraphController.getKnoeledgeGraph

```
graph LR; A[com.example.backend.controller.  
KnowledgeGraphController.getKnoeledgeGraph] --> B[com.example.backend.dto.  
NodeDto.getId];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'com.example.backend.controller.KnowledgeGraphController.getKnoeledgeGraph'. The right box is gray with a black border and contains the text 'com.example.backend.dto.NodeDto.getId'.

com.example.backend.dto.
NodeDto.getId
