

com.example.backend.controller.
KnowledgeGraphController.getKnoeledgeGraph

```
graph LR; A[com.example.backend.controller.  
KnowledgeGraphController.getKnoeledgeGraph] --> B[com.example.backend.dto.  
NodeDto.setName];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'com.example.backend.controller.' followed by 'KnowledgeGraphController.getKnoeledgeGraph' on two lines. The right box is gray with a black border and contains the text 'com.example.backend.dto.' followed by 'NodeDto.setName' on two lines. The blue arrow originates from the right side of the left box and points to the left side of the right box.

com.example.backend.dto.
NodeDto.setName
